 - Firmware for AR7 based routers
 - WordPress Plugins
 - Calendar

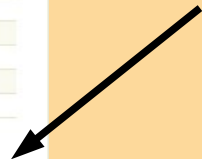

Introduction

- Why go beyond the blog?
- You create non-blog content
- Bringing it all together
- Pick up a plugin
- A few handy tips
- Questions

Beyond the blog

The screenshot shows a WordPress blog with a header image of a person playing a saxophone and the URL kieranoshea.com. The navigation menu includes Home, About, Projects, Calendar, Polls, Quotes, Photos, Forum, and Webcam. The main content area features three posts: 'Trip to Bath' (dated December 13, 2009), 'Bath Architecture' (dated December 12, 2009), and 'Christmas Lights' (dated December 6, 2009). The right sidebar contains a search box, a 'Calendar support' section with a calendar icon, 'Today's Events' (listing 'Prep all day'), 'Upcoming Events' (listing dates from July 11 to July 18, 2010), 'Upcoming Birthdays' (listing Simeon Jackson), and a 'Personal Summary' section with fields for Name, Age, and Occupation.

Man Over-Board Drill
While moored at Cowes on the Isle of Wight a crew member fancied a swim so while we were at it we tried out the man over-board drill

- Initial import is untidy
- Format of import is known and pre-defined
- Can manipulate this with a plugin to make it neat
